

# SANJU KUMAR JHA

## Full Stack Developer

📍 Delhi, India    📞 +91-9899847165    ✉ [rjriya00@gmail.com](mailto:rjriya00@gmail.com)    🔗 [linkedin.com/in/sanjujha](https://www.linkedin.com/in/sanjujha)    🐙 [github.com/sanjukumarjha](https://github.com/sanjukumarjha)

### Experience

#### Web Developer

March 2025 – Present

*India Music Distribution*

*Delhi, India*

- Developed and maintained a full-stack music distribution platform, enabling releases to over 150 streaming services.
- Implemented a scalable Node.js backend with MongoDB, processing 1,000+ daily uploads with 99.9% uptime and reducing query response time by 25%.
- Created a responsive React frontend that improved user engagement by 40% and onboarded 500+ artists within six months.

#### Web Developer Intern

July 2024 – Sep 2024

*Utsavbox*

*Gurugram, India*

- Increased campaign sales by 15% by designing enhanced Shopify layouts and customizing storefronts using Liquid.
- Enhanced site speed by 25% by building reusable Liquid components, improving user experience for 10,000+ monthly visitors.
- Collaborated with marketing team to integrate video sliders and promotional features for 3 major festive campaigns.

### Projects

#### India Music Distribution 🎧 | *React.js, Node.js, MongoDB*

- Built a production-level platform for 500+ artists to distribute music to 150+ streaming platforms.
- Optimized backend queries, improving processing time by 30% and supporting 1,000+ daily uploads with high availability.

#### Dashboard of Intecom 🎧 | *HTML, CSS, JavaScript*

- Reduced dashboard load time by 50% using client-side rendering techniques.
- Improved accessibility and user retention by 25% with responsive design and dark mode integration.

#### Sansocial 🎧 | *React.js, Node.js, MongoDB, Socket.io*

- Developed a MERN stack social media application with real-time messaging latency under 200ms using Socket.io.
- Implemented JWT authentication and scalable news feed, supporting 100+ concurrent active users.

### Skills

**Programming Languages:** JavaScript (ES6+), Python, HTML5, CSS3

**Frameworks & Libraries:** React.js, Node.js, Express.js, Socket.io

**Databases:** MongoDB, Firebase, Supabase

**Backend Development:** REST APIs, Authentication (JWT, OAuth), Database Optimization

**Tools & Platforms:** Git & GitHub, Vite, Netlify, Figma, Shopify

**Other Skills:** Responsive Web Design, Agile Development, Team Collaboration, Project Management

### Education

#### Bachelor of Computer Applications (BCA)

2022 – 2025

*Tecnia Institute of Advanced Studies (GGSIPU), Delhi*

*CGPA: 8.2 / 10*

### Certifications & Achievements

- **Top 16 Semester Performance Rank** in the BCA program at GGSIPU.
- **2nd Place, B-Plan Competition** at the 15th Techno Vision IT Fest (2024).
- **Ethical Hacking Certification (90% Score)** from college-accredited Value Added Course.
